

village atmosphere

Located on the tip of the Yucatan Peninsula, Club Med Cancun offers views of the area's famous crescent beach to one side, and the wide-open Gulf of Mexico to the other. However, at this vibrant, active village, the most interesting sights you'll see lie right here on land. The nightclub, bars and poolside areas here are

legendary for their social scene. The volleyball, basketball and tennis courts host countless competitions. And stages across the property showcase local artists, international acts and G.M.s just like your clients. It's an adults-only party that starts early, ends late and takes place every day of the year.
